

Our Solutions

Bespoke workplace solutions for M365

Digitally Transform Your Expenses Claim Process

Easily Submit and Manage Expense Requests

Submitting and managing expenses can be a difficult process to manage in an increasingly dynamic work environment.

Our Expenses app gives employees the ability to quickly submit expenses from their mobile and desktop device. Submissions can be easily tracked and actioned using the dedicated Approvals portal, ensuring expenses are no longer a burdensome task.

- Quickly submit Expense requests and track the progress
- Reduce the need for employees to keep and store paper receipts
- View a record of approved expenses
- Improved security and audit features
- Reduce finance administration time required
- Integrate seamlessly with existing Microsoft applications

Base Solution Cost: £2,800

1-year subscription

Cost includes Install, Training and Support

Customisation costed separately

Our Solutions

Bespoke workplace solutions for M365

Empowering people, Elevating organisations

Introducing Flyte

As a Microsoft M365 specialist, Flyte has extensive experience developing and delivering custom apps and solutions on the Microsoft Power Platform.

Our journey started in 2012 as Cloud Cover IT, an IT Managed Services provider, with a mission to empower organisations through technology across the central belt of Scotland, UK. In 2016 we became a Microsoft Gold Partner with the strategic ambition to become the leading Microsoft Consultancy practice in Scotland, known for leveraging the Microsoft technology stack to empower business.

As opportunities with Microsoft and the Modern Workspace have continued to grow, Flyte is the next stage in the journey to becoming recognised as a market leader in cloud technology solutions on an expanding, global platform.

Our Solutions

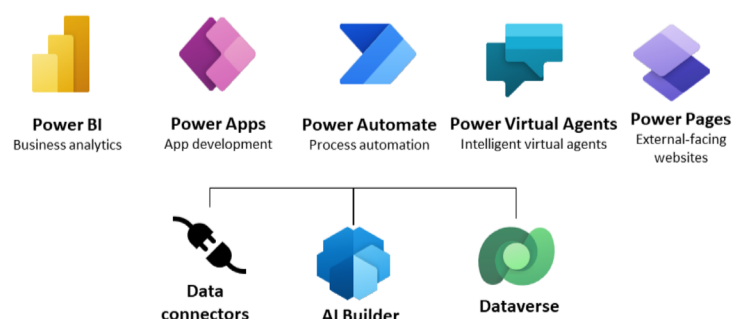

Flyte Workplace Solutions have been developed to deliver effective, digital management of critical Business Processes.

Built on the Microsoft Power Platform, our solutions integrate seamlessly with your existing Microsoft 365 infrastructure and systems, and a single platform approach-

- Utilising existing user accounts & licences*;
- Linking directly with Teams, SharePoint, Outlook, PowerBI, & Dataverse (where required)

The Microsoft Power Platform offers robust security features while adhering to the highest standards of data protection and compliance- essential factors for introducing reliable, secure systems.

All apps can be customised to suit specific needs and requirements

*new licenses may be required depending on solution.
