THIS WEEK:

Power Pages Part 1:

What is Microsoft Power Pages?

Need to Share Information Outside Your Business?

Customers, suppliers, partners and contractors often need access to:

-  Documents
-  Forms
-  Data
-  Requests & applications

But email chains, spreadsheets and manual processes quickly become difficult to manage.

So, What is Power Pages?

Power Pages allows you to create secure external-facing websites that connect directly to your business data.

Customer portals

Supplier portals

Learning & training portals

Application & registration forms

Self-service information hubs

scott@flyte.cloud

Flyte

One Portal. One Experience.

Instead of handling everything manually:

- ✓ Users access information themselves
- ✓ Forms feed directly into business systems
- ✓ Data stays secure and up to date
- ✓ Processes become faster & more efficient

Less administration. Better user experience.

What Could You Build?

-  Customer service portal
-  CPD and training platform
-  Contractor onboarding portal
-  Grant or funding application site
-  Supplier management portal
-  Secure document sharing hub

If someone outside your organisation needs access, Power Pages can probably help.

scott@flyte.cloud

Flyte

The Outcome

-  Less manual administration
-  Secure external access
-  Better customer & partner experiences
-  More scalable business processes

scott@flyte.cloud

Flyte

Less administration. More self-service.

Give customers, suppliers and partners secure access to the information and services they need, without the back-and-forth.

Let's talk about what **Power Pages** could do for your organisation.
